WOODWARD'S

HandClens[®] Antimicrobial Foam Hand Wash

The Next Evolution in Hand Hygiene

The diagram illustrates the evolution of hand hygiene. It shows four stages of human evolution from left to right: a monkey-like creature, an ape-like creature, a modern human, and a modern human standing at a sink. Below each stage is a corresponding soap product: Bar Soap (pink bars), Liquid Soap (yellow liquid in a pump bottle), Antibacterial Soap (green liquid in a pump bottle), and HandClens Antimicrobial Foam Hand Wash (various dispenser and bottle formats). A timeline at the bottom marks the progression.

Features	Bar Soap	Liquid Soap	Antibacterial Soap	HandClens Hand Wash
Kills Common Germs			X	X
Non-irritating, Non-drying				X
Won't Strip Away Skin's Natural Oils				X
Minimal Environment Impact	X	X		X
Kills 99.99%+ of Murine NoroVirus & MRSA				X
Surpasses FDA Requirements for Healthcare Personnel Hand Wash				X

WOODWARD'S

HandClens[®]

Antimicrobial Foam Hand Wash

**Kills
MRSA**

Ideal For:

- Hospitals, schools & government facilities that need premium germ-killing protection without the need to use surgical scrubs
- Existing HandClens customers
- Schools that cannot afford hand sanitizer, but want 99.99% germ-killing activity in their daily hand wash
- Customers that complain about skin irritation with existing antimicrobial ingredients
- Customers that want a “greener” antimicrobial soap

Tough on Germs, Gentle on Skin

Other Benefits:

- HandClens brand proven seller
- Comprehensive hand hygiene program with HandClens sanitizer
- Surgical soap effectiveness without the expense

Case Item Number	Description	Units/Case
10703	HandClens Touch Free Dispenser White	12
10723	HandClens Manual Dispenser White	20
12106	HandClens Foam Hand Wash 1 Liter (33.8 oz.) Cartridge	4
12104	HandClens Foam Hand Wash 18 oz. Pump	12
